

As the colder weather has arrived, the children will be learning to put on their coats, hats and gloves **all by themselves**. To help us make the transition easier, the children are learning to put their bag on the bottom peg, and their coat on the top peg. The 2 pegs are the same colour.

As the children arrive at school, we are also learning, gloves in our pockets and hats in our hoods. This makes the transition to outdoor play, easier and quicker.
